DETAILED ACTION

Election/Restrictions

Claims 1-6, 8-16, 26 and 27 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 17-26, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on May 6, 2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-6 and 8-28 are allowed. The following is an examiner's statement of reasons for allowance: Moutard et al (J. Incl. Phen. Macrocyclic Chem., 2002 – of record as citation CB in IDS submitted 7/17/06) teaches cyclodextrin derivatives similar in structure to those of the

instant invention. However, there is no suggestion or motivation to modify the Moutard structure by using an amino acid linker.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
